

Frequently Asked Questions

Questions? We're here to help. If you don't find the answer you're looking for, simply contact us and we'll be happy to assist.

I don't have time to design a label or sticker. Can you do it for me?

Absolutely.

Simply send us a message with your requirements and we'll create a label or sticker for you free of charge.

Whether you need a Branded Label, QR Code Label, Promotional Sticker, Tamper-Evident Seal, or a completely custom design, we'll work with you to create a design that matches your restaurant, message, and goals.

Once approved, your design will be saved for fast and easy reordering in the future.

What if I make a mistake while designing my label?

Don't worry. Before we rush your order to print, every design is reviewed by **real eyes, not an algorithm.**

Our design team carefully inspects your artwork for common issues such as sizing problems, misplaced elements, low-resolution images, spelling mistakes, or formatting concerns. If we spot something that may affect the appearance of your labels, we'll correct it whenever possible or contact you if needed.

Most online printers rely heavily on automated systems. We believe a human review helps ensure your labels look their best before production begins.

What is the VIP Membership Program?

Our VIP Membership is completely free and easy to join.

VIP Members receive:

- Free shipping on every order, regardless of order size
- Exclusive promotions and special offers throughout the year
- An additional 50 labels added to every order

It's our way of helping restaurants get a little more value from every purchase.

Why do you offer Bundles?

Our Bundles help restaurants get more value from every order.

Instead of purchasing individual labels and stickers separately, restaurants can combine complementary products into one affordable package designed to promote branding, repeat business, online reviews, and customer engagement.

Unlike traditional in-store and online printers, our Bundles are built specifically with restaurant growth in mind. It's a unique offering that most printers simply don't provide.

Why choose you instead of a local print shop or online printer?

Most printers simply print what you send them.

We focus exclusively on helping restaurants build their brand, encourage repeat business, increase online reviews, and improve customer engagement through strategic label and sticker solutions.

Our prices are very competitive, and our VIP Membership Program provides even more value through free shipping, bonus labels, and exclusive offers.

How quickly will my labels ship?

From the time we receive your order, review or create your artwork, print your labels, and prepare them for shipment, the entire process typically takes **4 to 7 business days**.

Our goal is to get your labels produced and delivered as quickly as possible without sacrificing quality.

Do I need professional artwork for Branded Labels?

Not at all.

You can upload your own logo or artwork, or simply create a label using text. Our easy-to-use design tools allow you to add your restaurant name, contact information, promotions, QR Codes, and more.

No design experience required.

I'm not good with technology. Can you help?

Absolutely.

We've designed our customization tools to be as simple as possible, but if you run into any issues, we're here to help.

Our team will review your design and make adjustments when needed. If you need extra assistance, simply email us and we'll guide you through the process—or even help set up your design at no additional charge.

Once your design is created, reordering is fast and effortless.

How do I design a label?

Simply click **Design Now** to get started.

You can upload artwork, add text, choose colors, generate QR Codes, and use our restaurant-themed clipart. We've made the process quick, simple, and fun.

For additional help, be sure to check out our [Directions for Making a Perfect Label](#).

Can I add a QR Code to my labels?

Absolutely.

Our built-in QR Code Generator allows you to create QR Codes that can link to your menu, online ordering page, Google Reviews, social media accounts, promotions, loyalty programs, and more.

Do QR Codes really help restaurants?

Yes.

QR Codes can help customers quickly access your menu, online ordering page, Google Reviews, loyalty programs, social media accounts, and special promotions.

They're one of the simplest ways to turn packaging into a marketing tool.

Why use Branded Labels instead of plain packaging?

Branded Labels help turn ordinary packaging into a marketing tool.

They increase brand recognition, promote repeat business, encourage online reviews, and help your restaurant stand out from competitors.

Which labels are most popular with restaurants?

Our most popular products are Branded Labels, QR Code Labels, Promotional Labels, Tamper-Evident Labels, Social Media Labels, and Customer Appreciation Stickers.

Many restaurants bundle several label types together for maximum value and marketing impact.

Can I use my labels on takeout bags, containers, and drink cups?

Yes.

Our labels are designed for a wide variety of restaurant packaging, including takeout bags, food containers, beverage cups, boxes, and packaging sleeves.

What if I'm not satisfied with my order?

Your satisfaction is important to us.

If there's an issue with your order, contact us and we'll work to make it right. If we're unable to resolve the problem, we'll gladly refund your purchase.

Do you offer free shipping?

Yes.

We offer free ground shipping on orders over \$80. VIP Members receive free shipping on all orders, regardless of order size.

Do you ship throughout Canada and the United States?

Yes.

We ship anywhere in Canada and the United States.

What's the minimum order quantity?

Our roll labels can be ordered in quantities as low as 100 labels and up to 2,000 labels per order.

Can I reorder the same labels later?

Absolutely.

Once your design has been created and approved, reordering is quick and easy. No need to recreate your artwork every time.

What label sizes do you offer?

We offer a variety of popular label sizes suitable for takeout bags, food containers, beverage cups, packaging, promotional campaigns, and more.

Are your labels water-resistant?

Yes.

Our water-resistant labels are designed to maintain their appearance and adhesion even when exposed to moisture, refrigeration, and everyday restaurant use.

C

What file types can I upload?

We accept most common file formats, including:

PNG, JPG, AI, GIF, SVG, BMP, PDF, TIFF, and PSD.

For the best print quality, we recommend artwork at 300 DPI whenever possible.

What happens to RGB artwork?

Most digital files are created in RGB color mode, while commercial printing uses CMYK inks.

If your file is uploaded in RGB, we'll convert it to CMYK for printing. Because of this conversion, some colors may appear slightly different in print than they do on your screen.
