What is the greatest challenge for your takeout business? *Select one:*

- Eco-friendly packaging costs
- Food tampering/security
- High delivery commission fees
- Shifting from dine-in to takeout
- Unreliable delivery pickups/cancellations

***there should be a check box and a running percentage total beside each choice**

***to get the percentage calculator should we use a plugin? It's important to have a 'real time' percentage calculation beside each choice – this page will validate webpage and also show engagement**
