

Tamper-Evident Labels for Restaurants

Seal It, Brand It, Protect It.

Custom Tamper-Evident Labels

Create tamper-evident labels that match your restaurant's brand while making food protection visible. You can place your logo, brand name, or artwork directly on the template for a clean, professional look that reinforces trust with every order.

Not every sticker is tamper evident in every situation. Tamper-evident performance depends on the label material, adhesive, packaging surface, and how the label is applied.

On the right material, such as paper takeout bags, all of our labels can help act as a visible seal. The difference is that our Tamper Evident Labels are designed and positioned specifically to give customers trust, comfort, and reassurance at pickup or delivery.

These labels do more than seal packaging — they communicate care, professionalism, and brand quality.

A Visible Seal That Helps Customers Feel Confident

Many labels can help close packaging, but not every label is built for tamper-evident use on every surface. Performance depends on the material, adhesive, surface, and application.

Our Tamper Evident Labels are designed for restaurants that want to show customers their order was sealed with care before pickup or delivery.

They add visible reassurance to takeout and delivery orders, helping customers feel more comfortable from handoff to first bite.

Design Online in Minutes

Our easy-to-use design tool lets you:

- Upload your logo or artwork
- Add brand colors and text
- Adjust sizing and layout
- Customize your label with no design skills needed

Choose a template, add your branding, and create professional tamper-evident labels in minutes.

Why Restaurants Use Tamper-Evident Labels

- Make sealed packaging clearly visible to customers
- Show customers their order was closed with care
- Add trust and reassurance at pickup or delivery
- Help customers feel more comfortable with takeout and delivery orders
- Build professionalism into every handoff
- Strengthen brand recognition
- Ideal for paper takeout bags, delivery orders, and catering packaging

Made for Food Packaging. Built for Trust.

All of our labels can help seal the right packaging surfaces, such as paper bags. Our Tamper Evident Labels take that function and turn it into a clear customer-facing message: this order was sealed with care.

They are designed for restaurants that want stronger branding, safer-looking packaging, and more customer confidence with every order.
